

More Belmont Homes by Morningstar Homes Just Released

For Immediate Release – April 21, 2008

Morningstar Homes opened their first Belmont show homes on the Foothills at Burke Mountain on April 19. Belmont is already proving to be a highly sought-after neighbourhood. To date, one-third of Belmont homes have already sold.

With elegant architecture modeled after established Vancouver neighbourhood Shaughnessy, mountain streams, a 'green street' and energy savings built right in, it comes as no surprise that Belmont is proving so popular.

After such a successful beginning, Morningstar Homes wants to continue the momentum and will immediately release more homes for sale within the Belmont neighbourhood. Prices begin at \$699,000, with their Grand Opening incentives still in effect.
